..... Work Experience

Postdoc **Stanford University**, *Aeronautics & Astronautics*
Begin: September 2020
Mentor: Mac Schwager

Postdoc **University of California, Berkeley**, *Electrical Engineering & Computer Sciences*
Begin: June 2020
Mentor: Claire J. Tomlin

..... Education

PhD **University of California, Berkeley**, *Electrical Engineering & Computer Sciences*
Graduation: May 2020
Advisor: Claire J. Tomlin

BSE **Princeton University**, *Electrical Engineering*
June 2015, *Summa Cum Laude*
Advisor: Paul R. Prucnal

..... Research Overview

My primary research interests lie in robust optimal control, motion planning, differential game theory, and safe autonomy. While I have also worked on a number of other projects related to distributed control, reinforcement learning, adaptive control, and active search, most of my work falls into the following categories:

- Efficient motion planning with strong, modular safety guarantees derived from Hamilton-Jacobi reachability analysis of nonlinear systems
- Confidence-aware prediction of other agents' motion for robust human-facing automation
- Posing interactive motion planning problems as multi-player, general-sum differential games and designing efficient algorithms to solve these games

..... Awards

1. **Demetri Angelakos Memorial Achievement Award**, Recognizes graduate students who, in addition to conducting research, unselfishly take the time to help colleagues beyond the normal cooperation existing between fellow students., *UC Berkeley EECS Department*, 2020.
2. **RSS Pioneer**, Workshop for top early-career robotics researchers., *Robotics: Science & Systems Pioneers Workshop*, 2019.
3. **Top Reviewer**, Rated one of the top 400 reviewers for NeurIPS 2019., *NeurIPS*, 2019.
4. **Outstanding Graduate Student Instructor**, Awarded to up to 9% of current GSIs throughout the university., *University of California Berkeley*, 2018.
5. **Charles Ira Young Memorial Prize**, Awarded each year to the student who excels in research in Electrical Engineering., *Princeton University*, 2015.
6. **G. David Forney Jr. Prize**, Awarded annually to a senior in Electrical Engineering Department. having an outstanding record in the communication science, systems & signals., *Princeton University*, 2015.
7. **James Hayes-Edger Palmer Prize**, Awarded annually to an engineering senior who has manifested excellent scholarship, a marked capacity for leadership and promise of creative achievement in engineering., *Princeton University*, 2015.
8. **NSF Graduate Research Fellowship**, *National Science Foundation*, 2015.

..... Teaching Experience

- 2019 **Graduate Student Instructor**, *Dept. of Electrical Engineering and Computer Sciences*, University of California, Berkeley
CS70: Discrete Mathematics and Probability Theory (Undergraduate)
Led discussion sections, held office hours, and ran “homework parties” for introductory CS course with approximately 300 students.
- 2017 **Graduate Student Instructor**, *Dept. of Electrical Engineering and Computer Sciences*, University of California, Berkeley
EE106A: Introduction to Robotics (Undergraduate and Masters)
Head lab instructor, managed two undergraduate teaching assistants and created and tested content for new hardware for course of approximately 100 students. Received 2018 Outstanding Graduate Student Instructor Award.
- 2015 **Teaching Assistant**, *Dept. of Electrical Engineering*, Princeton University
ELE302: Building Real Systems (Undergraduate)
- 2013-2015 **Tutor**, *McGraw Center for Teaching & Learning*, Princeton University
MAT201/3: Vector Calculus (Undergraduate)
MAT202/4: Linear Algebra (Undergraduate)
PHY103: General Physics I (Undergraduate)
- 2013 **Tutor**, *Freshman Scholars Institute*, Princeton University
POL245: Visualizing Data (Undergraduate)

..... Internships

- 2018 **Software Engineering Intern**, *Nuro Inc.*, Mountain View, CA
Planning, Prediction, and Control Team
Developed, tested, and deployed core safety features for autonomous vehicle motion planning and prediction.
- 2014 **Software Engineering Intern**, *Applied Science & Tech. Research Inst.*, Hong Kong
Integrated Circuit Design Group
Designed, implemented, and tested algorithms for depth estimation and video depth sense enhancement.
- 2013 **Embedded Systems Intern**, *Sentinel Photonics*, Monmouth Junction, NJ
Built, aligned, and tested hydrogen cyanide gas sensor prototype. Designed and implemented signal processing backend for spectral analysis.

..... Professional Activities

PROFESSIONAL SERVICE – LEADERSHIP ROLES

1. Coordinator, Semiautonomous Control Theory Seminar Series, UC Berkeley, 2018–2019.
2. President, Electrical Engineering Graduate Student Association, UC Berkeley, Surveyed students and found that a significant fraction suffered anxiety related to finding a research advisor. Initiated the Rotations Committee to interface between students and faculty and explore the possibility of a rotations program for incoming first year PhD students., 2016–2017.
3. Coordinator, Workshop on Robust Autonomy: Tools for Safety in Real-World Uncertain Environments, Robotics: Science & Systems, 2019–2021.
4. Coordinator, CPAR/DREAM Robotics Seminar Series, UC Berkeley, 2019–2020.
5. Senator, Graduate Assembly, UC Berkeley, 2017–2020.

PROFESSIONAL SERVICE – COMMITTEE ROLES

1. Student Representative, Graduate Student Matters Committee, UC Berkeley Electrical Engineering and Computer Sciences, 2016–2017.
2. Social Committee, Electrical Engineering Graduate Student Association, UC Berkeley, 2015–2016.
3. Qualifying Exam Ombudsman, Electrical Engineering Graduate Student Association, UC Berkeley, 2018–2020.
4. Rotations Committee, Electrical Engineering Graduate Student Association, UC Berkeley, Working with faculty committee for graduate matters to design a rotations program for first year graduate students., 2017–2020.

REVIEW ACTIVITIES

1. Advances in Neural Information Systems.

2. American Control Conference.
3. Conference on Decision and Control.
4. IEEE Conference on Control Technology and Applications.
5. IEEE International Conference on Robotics and Automation.
6. IEEE Robotics and Automation Letters.
7. IEEE Transactions on Intelligent Vehicles.
8. IEEE Transactions on Robotics.
9. IEEE/RSJ International Conference on Intelligent Robots and Systems.
10. International Conference on Learning Representations.
11. Learning for Dynamics and Control.
12. Optimization Methods and Software.
13. Robotics: Science and Systems.

MENTORSHIP ACTIVITIES

1. High School Summer Research Mentor, Hybrid Systems Lab, 2019.
2. Session Leader, Girls in Engineering Summer Camp, 2019.
3. Volunteer, Bay Area Scientists in Schools, 2018–2019.
4. Undergraduate Research Mentor, Hybrid Systems Lab, 2017–2019.
5. Graduate Research Mentor, Hybrid Systems Lab, 2018–2020.
6. Session Leader, Get Science, Engineering, and Technology SWE Summer Camp, 2018–2019.

..... Academic Publications and Presentations
